Dear Ed,

it seems I am always saying I am sorry but I am for the delay in writting this letter but I have my hang'n and it would seem this is one of them. I would like to say for one time in my life I am not sorry for anything I did, to stand up and say take your best shot I will not change. I supose this is childish but I am tired Ed and need a place to rest. However to get to the Nitty Gritty Weitzman is the one who identified the rifle but I did see the stamp 7.65 Mauser on the Barrell so there was no question.

and yes it did have a scope mounted on it,
and that was at 1.05 PM as
I looked at my watch when the
Dallas police officer told us a
Officer had been killed in our cliff.
so you see Tippitt was dead at
appx. 1.05 PM, an impossible task
for Oswald.

as to the photograph of the shells.
they were in uniform lying on the
floor no more than Two inches apart
all facing the same direction when I
found them, and there was no bag
bag to carry a rifle in only the
lunch pack and told Dick Battle,
and I searched with the aid of a
hand dog! as for the man running
down the grassy knoll and the Station
Wagon Dick Sprague has pictures of

This as well as the clock showing what time 12:44 PM. I saw them in New York, why he doesn't show them I will never understand, as for the attempts on my life I dont know who is behind it. I have been shot at in 67, in 69 my life was threatened and in 70 my car was blown up in 71 I was run off a mountain in West Texas and my back Broken as well as my shoulder, my left elbow, my left foot and my right leg. So I have suffered somewhat and then to top all that my Wife left me in 73 and took the children so I say again if you or your students persue this be sure you are willing to pay the full Price.

as for what was on the tape of my Testimony that is missing. Bellair asked me to identify some clothing which I did and that is all changed, However it was correct on the tape also the discription of the suspect and the station wagon was correct on the tape but not in my testimony. also the time factor was changed somewhat, and the people I talked to such as officer Baker was omitted. The tramp in the middle approached Penn and I in Sox angler when we did show there and before I could question him he ran away this was some 5 or 6 years later there was no Cigarette package found on the 6TH floor.

Please Ed don't worry about asking me anything I may be slow in answering but I will always write. I have been ruined financially and my reputation has suffered, I have been Totaly Disabled but Until they whereas they are silence me I will Continue to Tell it like it was

Sincerely Yours

Roger Craig

P.S Inclosed is a copy of the Zapruder Film maybe you Have one but if not you are [redacted] Welcome to it and I hope it is good and it helps.
